- [1] As a precaution begin your fast at Imsaak time & begin Fajr Namaaz at the times as above.
- [2] Nautical twilight is defined to begin in the morning, and to end in the evening, when the center of the sun is geometrically 12 degrees below the horizon.
- [3] Fajr is the beginning of Nautical Twilight. Sistaani:749. Just before dawn a column of whiteness rises upwards from the east. It is called the first dawn [Astronomical Twilight, 18 degrees]. When this whiteness spreads, it is called the second dawn [Nautical Twilight, 12 degrees], and the Prime time for Subh [Fajr] prayers. The time for Subh [Fajr] prayers is till sunrise.
